ABOUT US

After nearly seven years of research and development, Drive Quest Authorized Driving School was founded as a response to a growing and urgent need for a PREMIER customer oriented school with an exceptional teaching program designed to CONSISTENTLY uphold superior safety habits for our young adults. As our numerous testimonials indicate, the impact that our school has made to our students is beyond the realm of just passing the required tests; in a few hours of instruction, many students have taken a giant leap from having a severe driving phobia to excelling behind the wheel with total confidence.

Drive Quest's greatest asset is our staff. From our phone technicians to our driving teachers, we are sure that you will notice how genuinely friendly and competent we are. Our employees are personally selected out of several applicants who apply each month because they understand what we stand for: **Excellence**.

Over the years our clients have included royalties, doctors, politicians, university professors, scientists, lawyers, TV personalities, actresses, engineers, DMV examiner's children, disabled and so on ... but they all agree on the fact that we have gone beyond the call of duty to ensure that they will be safe, comfortable behind the wheel and pass the DMV test when ready.

Important information to remember before taking your DMV Permit Test

Courtesy of Drive Quest

Number of Feet

- 15': No parking 15ft from a fire hydrant.
- 100': Signal at least 100 ft before turning.
- 200': It's allowed to merge into a bike lane without a bicycle in it 200 ft before the turning right.
- 200': It's allowed to merge into a yellow center lane which is solid on the outside and broken on the inside (beginning or ending left turn lane).
- 300': Dim your high beam lights to low beam lights when approaching a car from behind.
- 500': Dim your high beam lights to low beam lights when approaching a car coming from the opposite direction.

About Number of Days

- 5 Days: Report to DMV the sale of your car.
- 10 Days: Report to DMV a change of address.
- 10 Days: Report to DMV, if you are involved in an accident with over \$1000 in damage.

About Number of Seconds

- 3 Sec. Rule: Proper following distance between your car and the car ahead.
- 5 Sec.: Signal at least 5 seconds before changing lanes on the freeway.
- 8-12 Sec.: Average time it takes to pass another driver on the freeway.
- 10-15 Sec: Look ahead to avoid last minute moves by other drivers.

About Speed Limits

- 15 mph: Alleys, parking lots, or if the words "blind" or "can't see" appear in the questions.
- 25 mph: School, construction, residential, and business.
- 65 mph: Freeway unless otherwise posted.

About Blood Alcohol Concentration

- 0.01% if the driver is under 21.
- 0.08% if the driver is over 21.

About Color Curb Markings

- Red: No parking (except for buses).
- Green: Limited time parking.
- Yellow: Loading or unloading only.
- Blue: Parking for handicapped with plates or placards.
